

SARBAK METAL TİCARET VE SANAYİ A.Ş.

01.12.2021

Dear Sir/Madam,

REACH (Registration, Evaluation and Authorization of Chemicals) Regulation became valid on 1 June 2007. As we said before, REACH Regulation also includes metal sector.

Sarbak Metal has contracted with the Only Representative (OR). Pre-registration is the first step and OR has been made this process for Sarbak Metal. Registration periods were determined according to the rules within the scope of the Reach Regulation.

The main alloying elements of our products are **copper, zinc and lead**. These substances have been registered by OR for Sarbak Metal on 30 November 2010 (**Cu and Zn**) and 09 September 2021 (**Pb**).

Registration reports of substances except for copper and zinc have been supplied from supplier.

Sarbak Metal is committed to always bring national and international obligations.

Sincerely yours.
